EXPERIENCE

Xtendly Philippines Inc, Muntinlupa, Alabang— *Full Stack Web Developer*

OCTOBER 1 2018 - NOVEMBER 2020

Worked mainly on prosperna.com, A web application crm specialized on serving mainly real estate professionals. I worked on both the frontend and backend. Heavily involved in the software development cycle, Software development methodology of scrum and Provides useful API for the mobile app.

SKILLS

For the backend side I mainly used PHP and laravel framework to develop api for the web application and mobile app, I also have some beginner experience at Node.js with Express js framework. Knowledgeable in docker containerization, Microservices architecture and REST API, Have intermediate knowledge in Remote access on server, Maintaining web server such as Nginx and Apache have deeper knowledge in MySql.

On the Frontend side, I mainly used jQuery and React.Js for rendering UI elements, also some other JavaScript Framework such as Knockout.Js I also have some experience of using Blade Templating Engine in Laravel.
